

CITY OF JACKSON

ANNUAL
BUDGET

2019

City of Jackson

February 8, 2019

To the Honorable Mayor and Members of the Board:

As Budget Officer, I am pleased to submit this amended budget, which represents our proposal for the anticipated revenues and the associated spending plan for the City of Jackson, for fiscal 2019.

The document, which is presented, is an amended version of the preliminary budget that was approved on December 3, 2018. This amended budget presents precise beginning balances for all of the various funds and accounts, as of January 1, 2019, and reflects balances to be approximately 2.7% greater than originally projected.

This proposal, again, provides for continued funding of the operation and maintenance of our many departments, at a level to adequately meet the public need. All departments are appropriately represented and funded to provide for current year expenditures.

Additionally, this budget continues to incorporate employee wage/salary/benefits that were part of a study presented and accepted in late 2016. As in previous years, this plan continues to provide for the maintenance of the retirement system as well as for the contribution of a significant percentage of the funding necessary to provide for the maintenance of employee medical insurance benefits.

With regard to other specific areas of this proposal, I would offer the following comments.

This budget proposes continued expenditures for the operation and maintenance of our electrical distribution system, in addition to appropriations for several needed capital improvements.

Included in these capital improvements are the:

- 1) Continuation of the installation of equipment under the Tantalus Advanced Metering Infrastructure Project
- 2) 34.5 kV loop to West Substation Project
- 3) Major line relocations at Highway 61/Independence Street
- 4) Line relocation at Diverging Diamond Interchange
- 5) South Farmington Road to Industrial Park Connection Project.

Projected revenues in the electric operation reflect the changes resulting from an electric rate adjustment for 2019. Those rate adjustments, amounting to 2.1%, became effective in January, 2019, and are attributed to the increase in the Consumer Price Index, as certified by the Missouri State Tax Commission.

As of December 31, 2018, fund balances indicate that the surplus is maintaining an appropriate balance to fund the many projects associated with our electric operation. As part of this balance, it is important to remember that approximately three and one-half million dollars should be preserved as a safety net, to ensure that there are sufficient monies available to cover any unforeseen problems which may surface in the electric operation. Beginning in 2011, significant dollars were transferred to a newly created fund, the Capital Projects Fund. As of 2019, any funds that have been transferred, or will be transferred, will only be utilized for major improvements to the electric system. As of January 1, the Electric Capital Projects Fund had a balance of \$5,281,386.

This proposal continues to place appropriate emphasis on public safety. Equipment upgrades continue to be funded in the Police and Fire Departments. The Fire Department continues to operate and provide service from two separate stations and an administration building. During 2017, efforts continued toward the development of final design plans, a financing plan, and the presentation of a ballot issue to voters, for the construction of a new police facility. That issue was approved by voters on April 3, 2018. With that approval, and following a rigorous selection process, Penzel Construction Company, of Jackson, was ultimately selected as the Design/Build firm to proceed with the design and construction of the new facility. Completion of that construction is anticipated for mid-2020.

Public recreation projects are funded through park tax receipts, in addition to revenues generated from the Recreation Sales Tax. Subsidies to fund the park and pool operations continue to be made from this fund. Other monies generated from this tax are utilized to fund the operations of the Civic Center. Revenues from this tax were first collected in April, 2013. For 2019, it is expected that tax receipts will total approximately \$547,000.

Under this budget, the Road Use Tax Fund again provides for the City's annual asphalt street overlay program, as well as for the potential construction of additional portions of the City's trail system. Any extensions of the City's trail system projects continue to be funded from the auto sales tax portion of this fund.

Other significant street and transportation improvements are proposed under the Transportation Sales Tax Fund. Some budgeted items, under this fund, include:

- 1) Concrete street repairs/upgrades
- 2) Contractual street maintenance-joint sealing
- 3) Traffic signal at Oak Hill Road and East Main Street
- 4) Design/construction of a roundabout at East Main St./Shawnee Blvd.
- 5) Other miscellaneous street projects

Just as significant improvements have been planned in the previously mentioned funds, major upgrades are again planned for our water and sanitary sewer systems. To maintain the water utility, the base rate for water service was adjusted upward by \$4.42/service connection and the overall rates reflect adjustments amounting to a 2.1% increase. Again, this increase is attributed to the increase in the Consumer Price Index, as certified by the Missouri State Tax Commission.

On February 5, 2019, four million dollars of water revenue bonds were issued by the City of Jackson. Revenues from the sale of these bonds will be utilized to fund continuing water utility improvements that were originally proposed and approved by voters in late 2015.

As we enter 2019, city crews will continue with the installation of new meters under the AMI Project. Extensive main upgrades will resume under the first year of the 2019 Water Bond Improvements. As in prior years, we continue to maintain contracts for the maintenance of all of our elevated towers and ground storage. This, we believe, will continue to be a very advantageous use of ratepayer dollars.

In regard to waste water projects, several significant projects are planned for 2019. Among those, the Williams Creek Interceptor Sewer Project, an Influent Monitoring System, the Kimbeland Bypass Project, and a Biosolids Blower Replacement Project represent expenditures of significant dollars. As with the electric and water utilities, the revenues generated in the waste water operation are representative of a rate adjustment of 2.1%.

Once again, it is evident that this budget places emphasis on the continued upgrades to the City's infrastructures, while it continues to properly address the operational needs of our individual departments so that they may continue to provide our community with a full line of municipal services.

I respectfully recommend adoption of this amended budget for 2019.

Sincerely,

A handwritten signature in black ink that reads "James Roach". The signature is written in a cursive style with a long horizontal stroke at the end.

James D. Roach
