FOR IMMEDIATE RELEASE

In anticipation of this week's winter weather event, city officials have issued a Snow Route Proclamation at 3:00 PM this afternoon. Residents who have vehicles parked on designated snow routes in Jackson now have 12 hours to move those vehicles off the street or to a non-designated snow route to allow city crews to plow the entire width of the roadway. After 3:00 AM, on Wednesday, January, 25th, vehicles that are not moved may be ticketed or towed to allow for plowing. This Snow Event Proclamation will end when the storm is over, the street has been cleared, and the city has notified the local media outlets that the proclamation has concluded. We appreciate your cooperation during this winter weather event, and assisting us in providing safe travel for emergency services and the travelling public that must get out in these adverse conditions.

Vehicles parked in the uptown historic district do not need to be moved during Snow Event Proclamations.

In accordance with the ordinance, the parking of any motor vehicle, motorcycle, trailer, or other conveyance or object is prohibited on the following snow route streets within the city limits when a Snow Removal Proclamation is in effect:

<u>Snow Route Street</u>	<u>From</u>	<u>To</u>
